

Colleagues in Ukraine desperately need our help!

Which is why we are counting on your donations. Any amount you can spare will help, and so we are hoping to be able to rely on your support, from colleague to colleague!

The first donations have already been gratefully received, as the Dutch police unions are collectively donating €0.25 per member. Which comes to a total of around €14,000 euros!

The German police union DpolG has even pledged €20,000 euros already! Hence this campaign is already a tremendous success, but we are not there yet!

What will the money be used for?

The money will go to the Polish police union. They are in close contact with Ukraine and have taken on responsibility for the transport of materials. The European Police Union is teaming up with us to monitor spending of the cash. Purchases will be discussed and we will endeavour to provide maximum feedback on these discussions to you as donors.

Purchases/expenditure will comprise:

- Tactical equipment (bulletproof vests, night-vision goggles, etc.) - Food
- Toys and clothes for children and next of kin of police officers
- Safe houses
- Funerals

The money is intended for humanitarian purposes and police officers only.

Can we count on your support?

If so, please transfer your donation to:
